CORPORATE HEART HEALTH SCREENINGS

You Can't Afford For Your Employees
To Not Know Their Numbers

OUR GOAL:

To increase employees' understanding of the risk factors that may lead to heart disease as well as taking appropriate measures to improve everyone's heart health.

How 7 MINUTES CAN AND HEALTH CARE COSTS

Awareness of your employees' healthy well-being is a tremendous asset to any business. However, there are no assurances that they are eating healthy and exercising to lead a heart healthy life. By internally increasing the awareness, you can help to increase your employees' health and improve your bottom line.

Awareness

Cardiovascular diseases are the number one killer in America, for both men and women, and are responsible for more deaths than the next four leading causes of death combined. It is also the leading cause of permanent disability in the workplace.

Prevention

The great news is that 87% of heart disease is preventable through proper diet, exercise and medication. Specialized Screening Services is able to educate your employees through our Corporate Heart Health Screening programs and promote those preventable measures. By helping to identify individuals at risk of heart disease, employers can help to increase the well being of their employees in promoting lifestyle changes, all the while keeping health-care costs down.

Health Care Costs

With the rise of cardiovascular diseases comes the rise of excessive health care costs for your company. Our screening program is designed to potentially reduce those costs by allowing your employees access to low-cost comprehensive and accurate testing that could otherwise cost hundreds of dollars at a physician's office.

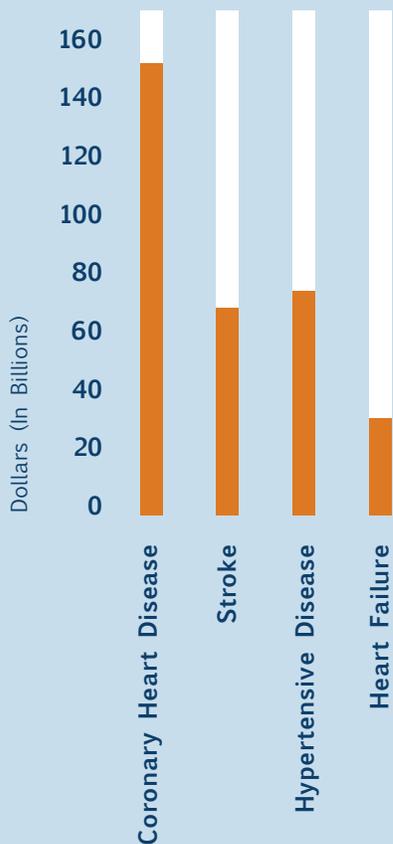

"We are pleased to acknowledge the very fine work done by Specialized Screening Services. The health fair screenings provided were consistently of high quality, great clinical value, and respectful to the participants. As a result, employees look forward each year to the health fair."

*Robert Trobe
Vice President
Commerce Banc Insurance Services*

HELP SAVE LIVES

The Cost to Your Business

In 2007, the cost of heart disease and stroke in women and men is projected to reach \$431 billion for lost productivity, healthcare services and medications.

(American Heart Association and the National Heart, Lung and Blood Institute)

Specialized Screening Services' Corporate Heart Health Screenings

Our all-inclusive heart health screening options make it easy for your employees to get checked and include:

- Total Cholesterol Testing
includes: HDL/LDL Cholesterol, Glucose and Triglycerides Testing
- Blood Pressure Checks
- Body Mass Index / Waist Circumference Measurements
- On-The-Spot Results
- One-On-One Counseling with a Certified Educator
- All Necessary Medical Supplies and Staffing

We will also set up a walk-through meeting at your convenience to best determine spacing and set-up logistics. We will also provide you with a step-by-step demonstration of how simple and easy it is to get tested and know your results within minutes!

Many of your employees may not even know they are at risk!

"WE WORK WITH MANY CUSTOMERS AND IT IS IMPERATIVE FOR US TO PROVIDE A HIGH LEVEL OF CUSTOMER SATISFACTION. WITH SSS, THE CUSTOMER'S EXPECTATIONS ARE GOING TO BE EXCEEDED. WE HAVE BEEN ABLE TO SEE THIS LEVEL OF SERVICE WHETHER THE ACTIVITY WAS FOR A SMALL GROUP OF 50 OR AS LARGE AS 1000. THE RESULT IS THE SAME, EXCELLENT STANDARDS THAT HAVE THE CUSTOMER ASKING THEM BACK FOR OTHER FUNCTIONS.

WITH A BUSY AND BROAD SET OF CLIENTS, SSS HAS ALLOWED US TO STAY FOCUSED ON THE BIG PRIORITIES, WHILE THEY ENSURE THE DETAILS ARE HANDLED WITH THE UTMOST PROFESSIONALISM. THIS IS CRITICAL KNOWING THAT WE MAY HAVE MULTIPLE INITIATIVES GOING ON AT THE SAME TIME AND FUNCTIONS COULD GET CONFUSED. WE HAVE BEEN WORKING WITH SPECIALIZED SCREENING SERVICES FOR OVER 8 YEARS AND HAVE FOUND THEM TO BE THE BEST IN MANY AREAS INCLUDING QUALITY, SERVICE AND VALUE."
